Kindergarten Next Generation Science Standards

**Motion and Stability: Forces & Interaction**

**K-PS2-1** Plan and conduct an investigation to compare the effects of different strengths or different directions of pushes and pulls on the motion of an object.

**K-PS2-2** Analyze data to determine if a design solution works as intended to change the speed or direction of an object with a push or a pull.

**Energy**

**K-PS3-1** Make observations to determine the effect of sunlight on Earth’s surface.

**K-PS3-2** Use tools and materials provided to design and build a structure that will reduce the warming effect of sunlight on Earth’s surface.

**From Molecules to Organisms: Structures and Processes**

**K-LS1-1** Use observations to describe patterns of what plants and animals (including humans) need to survive.

**Earth’s System**

**K-ESS2-1** Use and share observations of local weather conditions to describe patterns over time.

**K-ESS2-2** Construct an argument supported by evidence for how plants and animals (including humans) can change the environment to meet their needs.
Earth and Human Activity

K-ESS3-1 Use a model to represent the relationship between the needs of different plants and animals (including humans) and the places they live.

K-ESS3-2 Ask questions to obtain information about the purpose of weather forecasting to prepare for, and respond to, severe weather.*

K-ESS3-3 Communicate solutions that will reduce the impact of humans on the land, water, air, and/or other living things in the local environment.

Engineering Design

K-2-ETS1-1 Ask questions, make observations, and gather information about a situation people want to change to define a simple problem that can be solved through the development of a new or improved object or tool.

K-2-ETS1-2 Develop a simple sketch, drawing, or physical model to illustrate how the shape of an object helps it function as needed to solve a given problem.

K-2-ETS1-3 Analyze data from tests of two objects designed to solve the same problem to compare the strengths and weaknesses of how each performs.
